**Reasons for Allowance**

The following is an examiner's statement of reasons for allowance:

The objection to claim 23 is withdrawn in view of applicants' explanation indicating how claim 23 properly further restricts claim 22.

The prior art rejections based on Priddy and Honsberg also are withdrawn in view of the amendment cancelling claims 24 and 25 in favor of new claims 26 and 27, drawn to a two-step process wherein the first step stipulates the peroxide formulation be transported according to the method of claim 13. The claimed method, wherein containers having a size greater than 1 liter are filled with a peroxide formulation containing specified proportions of one or more peroxides and one or more phlegmatizers as more specifically defined in claim 13, is not taught nor fairly suggested in any prior art document(s) located or identified by the examiner as of the date of the Notice of Allowability. Because claims 26 and 27 are process claims that incorporate through dependency the manipulative step of claim 13, these claims are deemed allowable on the same rationale.

Accordingly, claims 13-23, 26 and 27 are deemed to define allowable subject matter and are passed to issue.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
